-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

**DETAILED ACTION**

***Election/Restrictions***

This application contains claims 8-11 drawn to an invention nonelected with traverse in the previous office action dated 23 February 2006. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rodth in view of Telco.

There is disclosed in Rodth a beverage cartridge, comprising: an outer member 11 defining a storage chamber in which is stored a beverage ingredient; an inner member 17 having a discharge spout 19, 21 forming an outlet for outflow of beverage; a filter 24 disposed between the storage chamber and discharge spout.

Telco discloses the use of a weld to secure a member within a beverage cartridge.

While Rodth fails to disclose that the inner member is attached to the outer member, it would have been obvious to one skilled in the art to secure the inner

member within the outer member by use of a weld as taught in Telco, in order to provide a one piece unit and reduce the need for additional parts.

***Response to Arguments***

Applicant's arguments filed 08 May 2006 have been fully considered but they are not persuasive. Applicant argues that there is no motivation provided for the proposed combination of references.

In response to Applicant's argument, the Examiner recognizes that references cannot be arbitrarily combined and that there must be some reason why one skilled in the art would be motivated to make the proposed combination of primary and secondary references. However, there is no requirement that a motivation to make the modification be expressly articulated. The test for combining references is what the combination of disclosures taken as a whole would suggest to one of ordinary skill in the art.

References are evaluated by what they suggest to one versed in the art, rather than by their specific disclosures. In this case, the Telco reference suggest the use of a one piece cartridge unit which could be accomplished by the use of welding parts together.

In regards to the use of ultrasonic welding and joining of elements in one operation, such are considered operational steps and fail to further limit, structurally, the claimed invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Reginald L. Alexander whose telephone number is 571-272-1395. The examiner can normally be reached on Monday-Friday.
